

The Workshop at ICSU 2015

A half-day workshop entitled as *Special Session on Prefabricated Housing Production* has been held at the Hong Kong Polytechnic University on January 9th 2015. The workshop was successfully held with the assistance of the conference committee of ICSU. The major members of the ITF team attended the workshop, including Prof. George Huang, Prof. Thomas Ng, Prof. Jeffery Shen and Dr. Wilson Lu. The workshop was chaired by Dr. Wilson Lu and followed by five presentations given by ITF team members: Dr. Ray Zhang, Dr. Ji Fang, Mr. Ke Chen, Mr. Gangan Xu and Dr. Fan Xue.

The five presentations introduced the focuses and current progress of the ITF project, including the core technologies for the RFID-enabled building information modeling, prefabrication production service for RFID-enabled building information modeling platform, IOT-enabled cross-border logistics for prefabrication construction and IOT-enabled on-site assembly service in prefabricated public housing construction.
